Pete it sounds like our days and nights are similar - but replace dogs and art with music and gardening.

Would it be ok with you if I set up a "quick" call with Karl, Judy, Andrew and us for ideally tomorrow? If so, what time would work best?

Thank you very very much!

Holly

Holly:

My days are really full lately. When did it become a symbol of success to fill our lives until there was no room for fun. Today is an example: Working till 4 then moving a part of my office to the new building then heading home to make sausage. Every day is like that. That or an art show or a dog trial or a training night. On the plus I am taking Friday morning off and gunning for a bird trial. "Ain't got a dog in the fight" so it should be fun.

Hi Pete, you definitely deserve an attaboy!

I'm off my call - and I'm guessing you're at lunch. Please call me when you have a chance

Did you find out if adoption of new or revised criteria in the state negates the criteria currently on the books?

Thank you.

Hi Pete, no need for a call. I'll just proceed as you wish and will write the BE as quickly as possible to send to FWS for concurrence on our NLAA finding for ND's revised aquatic life criteria.

I will be away from the office (to prep for charity event and massive amounts of company) beginning the afternoon of 8/24 through 8/30 and will continue writing with a vengeance beginning 8/31.

Thanks,
Holly

Dear Holly:

Karl is at the other building (we are moving). Will try and get him rounded up and call you today.

Note that the NDDEQ is requesting the standards be approved as a whole including mercury. The 304(a) list is good science and adopted it follows the law.
